Skills

Languages: HTML   CSS   JavaScript   TypeScript   Python

Technologies: Sass/Scss   React   React Native   Next JS   Redux
ReactQuery   Expo   Node   Express   MongoDB
FastAPI

Tools: Git   Postman   Figma   AdobeXd

Experience

3+ years software developer, adept at independent work (freelancing) and collaborative environments (startup). Skilled in project management, client delivery, agile development, and thriving in fast-paced settings. Strong track record of successful software projects across diverse dynamics.

Frontend Engineer, D-WebBox   *Jan. 2022 - Aug. 2023*
- Led the frontend development of *cross-platform mobile* and *web applications*, ensuring accessibility compliance and optimal user experience.
- Championed the adoption of *accessibility best practices* within the team, conducting code reviews and training sessions.
- Developed *reusable UI components* and implemented a design system to maintain consistency and efficiency.

**Frontend Engineer, Freelancing**   *Aug. 2019 - Dec. 2021*
- Built and launched accessible, responsive websites and single-page applications for clients.
- Collaborated closely with designers and stakeholders to ensure *UI/UX* consistency and alignment with *brand guidelines*.
- Implemented progressive enhancement and *responsive design principles* to cater to diverse devices and user needs.
- Increased client website conversion rates through strategic SEO and UI/UX optimizations.
Projects

FIKAA-Investment App For Women

`⚛ React` `⚛ React Native` `Ⓝ Next JS` `⟲ Redux` `◯ Sass/Scss`

A finance app that helps women invest and grow their money through Mutual Funds and SIPs.

• Developed a highly responsive and SEO-friendly web landing page for the ecosystem of apps.
• Led the frontend development team, overseeing the design and implementation of both web and mobile applications.
• Contributed to major user flows and designed architectures for the mobile application, enhancing the overall user experience.
• Integrated user journey tracking to provide valuable insights to the business regarding user blockers and challenges.
• Developed and implemented payment routes and redirections within the app to facilitate seamless and secure transactions.
• Took responsibility for optimizing code quality and performance, resulting in improved app performance and user satisfaction.
• Successfully achieved over 50K+ downloads on the Google Play Store and 20K+ downloads on Apple App Store for the mobile application.
• Collaborated with cross-functional teams, including designers and backend developers, to ensure seamless integration and functionality.
• Implemented best practices for mobile app development, including responsive design, usability, and performance optimization.
• Actively participated in code reviews and provided feedback to enhance the development process and maintain high code quality standards.
• Maintained up-to-date knowledge of industry trends, emerging technologies, and best practices to continuously improve the app ecosystem.
FOR ALL Community

`⚛ React` `⚛ React Native` `⟲ Redux`

Community app to get updates on work culture trends from GPTW accredited organizations.

• Developed a highly successful mobile application within the ecosystem, which has garnered over 1K+ downloads on the Google Play Store.
• Designed and implemented a feature-rich admin dashboard, enabling administrators to perform major CRUD (Create, Read, Update, Delete) operations efficiently.
• Worked on creating complex user interfaces with animations, enhancing the overall visual appeal and user experience of the app.
• Integrated notifications within the app to provide updates on community and work culture, keeping users engaged and informed.
• Implemented deep links to enable seamless content sharing and a hassle-free experience for Android and iOS users worldwide.
• Collaborated with backend developers and API providers to ensure smooth integration of deep linking functionality.

Asian Paints - Prelux

`⚛ React` `◯ Sass/Scss` `⚛ ReactQuery` `⋀ Expo`

An event management ecosystem for Asian Paints (one of the renowned companies).

• Managed the entire product portfolio for the project, led the product strategy and roadmap, aligning it with the business objectives of Asian Paints.
• Developed an event management system for Asian Paints, featuring a comprehensive admin dashboard.
• Created a mobile app with QR scanning functionality for attendance marking at events/exhibitions.
